WORK

UX Designer/Developer // Society for Science & the Public
Washington, DC (March 2017–Present)

Design and develop landing pages, email marketing templates, data collection and payment forms, and interactive news stories and data visualizations.

UI/UX Designer & Developer // Owen Software
Rockville, MD (Aug 2016–March 2017)

Write and maintain CSS/SCSS in an Angular 2 application. Ensure design and brand consistency across products, build front-end style guides, create iconography system.

UI/UX Designer & Developer // Freelance
Washington, DC (Jan 2015–Present)

Product Designer (Contract) // ArtLabDC
Washington, DC (May 2018–Present)

Spec out MVP app features for an early-stage startup. Create style library and UI components for Angular 6 app, customize Bootstrap-based theme. Assist founders with product strategy.

UI Designer (Contract) // Xometry
Bethesda, MD (March–May 2016)

Redesign and launch a new homepage using a responsive Bootstrap theme for Wordpress. Mockup design iterations in Sketch, prototype SVG animations. Build new landing pages.
